

---

## The APTUS Mission

### Objectively discover how a person learns.

APTUS will show, without human biases, *how* a person Defines, Processes and Executes instruction and information across various contextual environments, unlocking mental barriers and providing a clear path to development.

---

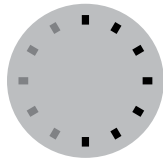

## Vision

We are a paradigm-shift in education that saves time. We empower educators, parents and students with objective data to maximize classroom resources and improve communication. We empower individuals to reach their potential.

---

## Our Innovative, Interactive Approach

- 30 minutes; 10 hands-on exercises on an iPad; no “test” anxiety
- Unbiased Assessment, free from human interference
- Reporting geared to develop the individual; increases ability to use differentiated instruction

---

**30 minutes**  
on a tablet based  
platform

---

**10 exercises**  
require active  
participation

---

**1 objective set of reports**  
shows how individuals learn and how they  
Define, Process, and Execute instructions  
and information

---

## Behavioral Science

Vetted by Behavioral Scientists  
and other Subject Matter Experts

---

## Technology

Given on tablet technology;  
no multiple choice questions  
or surveys

Immediate reporting; measuring  
in 1,000th of a second *how* a  
person learns best

---

## Developmental Strategies

Gets the Bottom Line Up Front  
(BLUF); intended for immediate  
implementation

Shows exactly *how* to reach  
each individual
