

The APTUS Mission

Objectively discover how a person learns.

APTUS will show, without human biases, *how* a person Defines, Processes and Executes instruction and information, providing a clearer path to development.

Vision

APTUS is a paradigm-shift in personnel assessments that can improve development. APTUS can increase morale while empowering leaders with objective data to help educate, train and inspire and gain a competitive-edge.

Our Innovative, Interactive Approach

- 30 minutes; 10 hands-on exercises on an iPad
- Unbiased Assessment, free from human interference
- Reporting geared to develop the individual

30 minutes
on a tablet based
platform

10 exercises
require active
participation

1 objective set of reports
shows how individuals learn and how they
Define, Process, and Execute instructions
and information

Behavioral Science

Vetted by Behavioral Scientists
and other Subject Matter Experts

Technology

Given on tablet technology;
no multiple choice questions
or surveys

Immediate reporting; measuring
in 1,000th of a second *how* a
person learns best

Developmental Strategies

Gets the Bottom Line Up Front
(BLUF); intended for immediate
implementation

Shows exactly *how* to reach
each individual
